How MHPN supports networks

MHPN's Network Survey Saves Planning Time

Survey software is a powerful tool that gathers data which can help coordinators with network and meeting planning.

MHPN's surveys can be tailored to capture information from network members regarding their preference on meeting logistics, topics, guest speakers and suggestions.

MHPN will formulate, distribute, collect and analyse the results for you!

Survey Example:

Feedback

2 / 9 22%

This section is designed to gather feedback on the meetings we've had to date.
